## References

Here are some of the great people I've had the opportunity to work with recently. Anyone can talk *themselves* up: I've developed some die-hard fans, so please give them a chance to brag about me!

## Supervisor

*Keith Roberts - Founder of Zenman..... worked with 2012 -2016*

Keith hired me at Zenman and gave me flexibility and encouragement to shape many of the development department and interdepartmental processes within his broader vision and direction for the company. He provided me increasing responsibilities, ultimately including me in Zenman's core leadership team.

## Peers

*Dominic Magnifico - Formerly Lead Developer at Zenman..... worked with 2012-2015*

Dom, who now works for IOUP, preceded me at Zenman and provided my on-boarding. While Dom continued to have seniority within the department, he and I ran our own internal development teams, both challenging each other and collaborating to strengthen the development department as a whole.

- Phone: 303.748.9035

*Taylor Langan - Designer at Zenman..... worked with 2015-2016*

Taylor worked as a leading Designer at Zenman and formed many of his department's design processes. He and I worked closely together to ensure our departments supported and inspired each other.

- Phone: 303.478.8088

## Mentees

*Hanni McNellis - Formerly Lead Developer at Zenman..... worked with 2014-2016*

Hanni started as a Developer and I was responsible for her on-boarding and training. I later recommended her as Lead Developer in charge of an internal team that paralleled my own within Zenman.

- Email: hanni.mcnellis@gmail.com

- Phone: 970.481.0756

*Corinne Winthrop - Senior Developer at Zenman..... worked with 2015-2016*

Corinne began as an intern and I was responsible for her first production project, a JavaScript-heavy, GreenSock-powered WordPress website. In part through my continued mentorship, she advanced to Senior Developer based on her advanced WordPress development knowledge.
